

University of Mostar participated in the VET training in the stone sector in the frame of ERASMUS+ project BKSTONE-Higher Education – Enterprise platform for fostering, modernisation and sustainable growth in natural stone industry in Western Balkans on April 04th - 09th, in region Murcia in Spain. The objective of this program is to learn about certified tests for stone and regulations on prevention of occupational hazards in quarries and factories. In that hance, we visited a stone quarry and a stone manufacturing company, and laboratories in CTM . Also, it was very interesting to visit stone architecture of Cehegin, Caravaca dela Cruz and Murcia city centre.
